Human has always strived for the heavens. He has been successful in some endeavors and not in others. How and why this all came to be is the subject of this photo-history.

*A human has
always dreamed...*

...about heaven.

*Often when he looked
at the birds flying in the sky...*

*...or, even at kangaroos living
on the trees, he...*

*...also often tried to climb
at least a little higher,*

*...and
sometimes
settled there.*

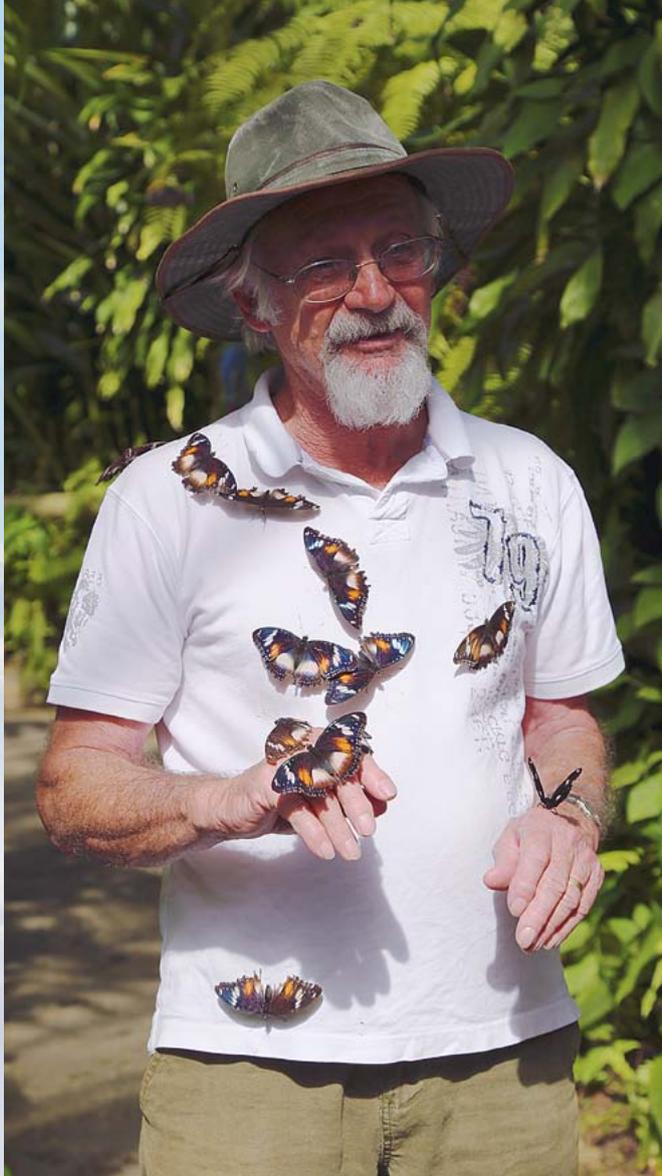

*From time
to time,
the man
made
different
suspension
bridges
to walk over
the tree
tops ...*

*...and sometimes even made
a ride above them.*

*At the all time
the human
has always
thought, how
could he too
learn to fly?*

*Man succeeded in his aspiration.
Planes,*

...helicopters,

*...and many other things are indeed
available to him today.*

*And
very often,
the view
from our
balconies are
as good as
a view from
a perfect
nest...*

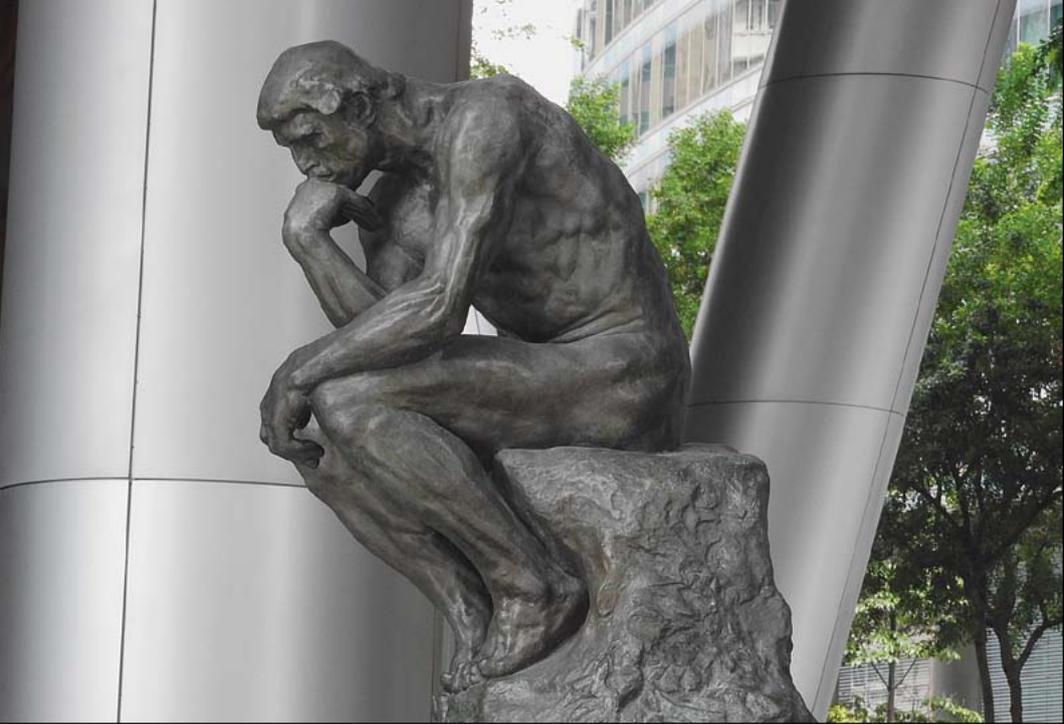

*After that, the human
tried to climb even higher.
However, it was either too hot...*

*...or too cold.
That is why
only satellites
and brave
astronauts
fly so high
in the sky
today.*

Was man really satisfied after what?

No way!
He dived
under
the sea,...

...began to ride waves,...

...and to catch the wind.

*(However, he did not forget
to jump sometimes).*

*But, as for heaven,
man just put...*

*...a massive
dot.*

However, sometimes
he still remembers
to look in the right
direction.

*Isn't human
in a hurry?
Did he really
opened up all
of heaven?*

*Of course not. He did not open
all of Heaven. Although many people
had passed this way before him.*

*The point is that we need to learn
about Heaven in a different way.*

*We need
to learn it not
with our eyes
and mind,
but with
our heart,
the love
inside of it
and with
kindness
and faith.*

*This Heaven is open for everyone
who always believes in delightful
fairytales with happy endings...*

*and for everyone who does not
forget to create our own kind
fairytales here on earth which itself
is sometimes not so “fairy”.*
